**To:** HearingComments, DNREC (MailBox Resources)

This proposed EV hearing by DNREC is absolutely ridiculous. First, DNREC makes giving a response extremely difficult. One site says you can offer your opinion at the hearing, other sites say you can only give a comment by email to DNREC directly. The information is confusing and conflictive for many of Southern Delaware's citizens who lack connectivity and this is a prey opportunity. Trying to slide another regulation under our noses with no open public forum.
