Comments:

I believe this is a bad program and would cause undue harm to senior citizens, low-income families, and others who cannot afford these expensive automobiles. What about our rights of free choice in the United States? All Americans should have the right to free choice and this program would cancel our free choice of selecting our own individual automobiles. Stop this stupidity and do away with the law from bringing enacted. The citizens of Delaware do not need a California law to be enacted that will harm the residents of this State. Sincerely, Thomas M Hughes
