To whom it may concern: I live in the USA, not China, not Russia and not North Korea. Accordingly, I resent government telling me that I have no choice in the purchase of an automobile after 2035, and I would only be able purchase electric cars. Government has become a ruling organization of its own and not a representative body of the people. Our politicians are taking us down a road that most people don't want - wake up before it's too late!! Be the voice of the people and not the advocate for a political agenda.
