Comments:

I am vehemently opposed to DNREC using CA standards related to electric vehicle mandates. I am certain my input will have absolutely zero impact on the state's agency moving forward with this sales mandate, but thought I would engage in this futile effort anyway. My husband and I have three small businesses in Sussex County employing around 40 ppl and bringing over 3M in revenue into Sussex County. We are so discouraged by this pending mandate and other legislative issues, that we have begun actively searching for another location in order to move out of state. This mandate will be bad for small business - with rural areas particularly hard-hit.
