I am so excited about the Advanced Clean Cars 2 Program for Delaware!!! I want to be able to buy an electric vehicle in Delaware! So do many of my friends and neighbors! It would be great if electric vehicles were much more available for purchase so we could buy them here in Delaware! More of us in Delaware would be buying and driving them! We have a problem with air pollution in our state, and it is affecting the health of Delawareans, including many of our children. Electric vehicles will not contribute to air pollution! Climate change is a problem of great urgency on our planet! Tailpipe emissions add greatly to this problem. Electric vehicles will help clean up our planet and reduce the climate emergency we are facing!! If Electric vehicles become much more available for sale in Delaware, the money that goes into these sales will help our economy in Delaware! VOTE YES ON THE ADVANCED CLEAN CARS 2 PROGRAM FOR DELAWARE!!!
