Comments on 2022-R-A-0011: Low Emission Vehicle Program

Name: Paul Buchness

Phone: 3025424086

Email Address: lighthousecateringdel@gmail.com

Organization: Owner/Chef Lighthouse Catering

Comments:

This regulation will affect my business directly in a negative manner. I use diesel vehicles for the distribution of my catering business because they are dependable, low cost to operate, and last for decades. There's no electric vehicle capable of delivering the amount of miles we may put on a single trip much less multiple trips in 1 day. If there is empirical data to support this invasion of my life, liberty, and pursuit of happiness, I have yet to see it. What are the reasons for such intrusion into not just my life, but the several employees and several hundred customers along with thousands of fellow Delawareans that may be terminated by these types of policies. This "comment period" shouldn't be left to input from the public. It should be on a referendum to VOTE on BY EVERYONE AFFECTED NOT BUREAUCRATS! This ramming of "Green Energy" is invasive, and unconstitutional and unproven in a purely scientific procedure. Show direct evidence that this intrusion that is being imposed by these bills will affect the environment in a SUBSTANCIAL, MEANINGFUL WAY. This legislation is a sham I'm opposed. Paul Buchness Owner/Chef Lighthouse Catering
