Comments:

Looking at all the scientific and political research, I implore you to STOP trying to take our freedom away from us. The lithium battery industry is sinful with how many children and others are exploited worldwide to make them. The amount of pollution it causes to make and sustain these EVs is well beyond that of gas-powered vehicles. STOP this INSANITY!! I want to choose my car - NOT have it mandated to me by socialistic and communistic politicians. Thank you.
