Request as via our rights as American citizens to be able to VOTE for or against the EV Mandate....Mandates are not the way our forefathers created this country....this country that both men and women have died for to keep and maintain the rights of each and every citizen.....our freedom is at stakethis is much much more then this topic...this is about how our country was created ...our country was not created as a dictatorship telling people what and how to do something....and it certainly was not created by telling people that not all freedom is absolute.....VOTE...not dictatorship
