TO: DDNREC Hearing on Advanced Clean Car 2  
Comment in SUPPORT of ACC2

I am John Mateyko, of 55 Sunset Road, Newark, DE 19711 and wish to write in support of the ACC2 proposal.

More EVs on the road will support clean air and better human health, and move us to the urgently required zero carbon transportation system we need for a sustainable planet.

EVs in Delaware will support the Delaware economy: a few weeks ago I was forced to travel an hour to Townsend MD to purchase my new Hyundai Kona Electric and support the MD economy with a check for \$42,000--because 100% EVs are not available for purchase in Delaware. This is shameful.

Thank you for this opportunity to support electric vehicles.

Sincerely,

John Mateyko
