Comments:

I do not support this at all!! Not all blue-collar workers will be able to afford an electric vehicle. And during a state of emergency, if we ever have to evacuate, all I foresee is broken down vehicles all on the road because their batteries are dead. I don't think that is been thought through properly. And I don't see how it helps our economy. People can't even afford groceries right now and you want us to buy brand new vehicles.
