Comments:

I am against the proposed adoption of the 2022-R-A-0011 Low Emissions Vehicle program. This program needs to be debated by the by full State Legislature, not decided by a state agency. Send the program and its advocates back to California where it/they belong. We don't want crazy high-cost California emissions rules here. These rules are destroying California. Delaware prides itself on being the first state to sign the Declaration of Independence, but now wants to ignore it completely.
