Comments:

What is the plan for discarding batteries? What would protect buyers of used cars for battery warranties? What about the elderly and disabled folks who have handicapped vehicles that have been modified for them to drive - will they receive financial assistance to convert to EV? Will anyone be grandfathered? What will be the expectation for the tourists visiting our beaches when they are driving gas powered vehicles? What will be the expectations for gas powered boats, jet skis, motorcycles, and more importantly farm and landscaping equipment? Lastly, what will be the consequence for a person or family who continues to choose to use gas powered vehicles?
