Dear Chairman,

As a strongly concerned Delaware citizen, I am writing to urge your department to drop the adoption of the new EV mandates patterned after the California plan which is totally unsuited for our state.

This would prove very impractical, unworkable and force an undue burden on many in the state, especially the lower income citizens and farmers. I feel it will have virtually no impact on the climate, and have a very **negative** impact on all of us.

Please act in our interest and stop this mandate now.

Sincerely,

James J. Anderson

Millsboro, DE 19966
