Please do NOT vote for mandating electric vehicles in DE!! Our aging power grid won't be able to handle it. Plus, I and many others don't want to plan our trips around charging stations. Electric vehicles are prohibitively expensive for a lot of people and don't make sense for long trips. How is EMS going to power vehicles if they're constantly out on calls? How are Farmers going to charge their vehicles if they're stuck in the middle of a field? This is such a bad idea all around. We need CHOICE not mandates!
