Organization: St. Andrew's School

### Comments:

Given the urgency and severity of climate change, a global phenomenon well documented by over 2000 of the world's leading climatologists, we need to do all we can to conserve energy and lessen emissions. The Low Emission Vehicle program is part of the answer, one recognized by many, including our neighbors in Maryland and New Jersey and others across the country. Please well consider the positive impact of this helpful legislation. Thank you for your consideration. Sincerely, Peter Peter Kleppinger McLean, Ph.D. Lewes, De 19958
