Comments:

To whom it may concern, The thought of the government telling me what kind of car/truck I can purchase is disgusting to me. Options are great and if the state wants to spend my tax dollars on things like public charging stations or incentives for purchase of electric vehicles then so be it. My issue is being told that I won't be able to purchase a vehicle of my choosing. Its not the governments job to tell its constituents what they can and cannot purchase. Fund our states teachers and first responders and keep our citizens safe. In my humble opinion that is the job of government. If this passes I will vote against anyone involved in this travesty. Steve Miller Selbyville, DE
