To: HearingComments, DNREC (MailBox Resources) <DNRECHearingComments@delaware.gov>

To: DNREC Secretary Garvin &
Governor Carney

These actions are not the will of the people of Delaware! For this reason alone, Code 1140 should not be considered! Additionally, YOUR legislation, and proposed mandate, is based on flawed 'science'. Just as many scientists would disagree with you as you have found to agree with you in regards to climate change. Pushing such an agenda without thorough and documented consideration of the overall impact on our people is irresponsible and selfish. WE ARE NOT CALIFORNIA! WE ARE DELAWARE, THE FIRST STATE! Following in the footsteps of another state is NOT what I expect from the LEADERS of MY STATE!
