As a small business owner, I must express my opposition to this program. It cannot be allowed to go forward. The burden that will be placed on business owners like myself will be high. Vehicle costs are high enough as it is, add in the infrastructure that will be required and it becomes unmanageable. There is nothing to be gained if this program is allowed to go forward other than government overreach. Controlling what vehicles, I am allowed to purchase and what dealers can sell? This country was founded on freedom, let's keep it that way!
