Comments:

I am strongly opposed to DNREC's EV mandate. I believe something of this magnitude should be backed by our legislators. I also believe we do not have the infrastructure in place, nor will we by DNREC's stated timeline, to support the number of low emission vehicles that the mandate would demand. I feel as if this is rushed and not thought through. Please do not allow this to go further until we have more time to study the implications and ramifications of such a big change.
