Comments:

My constitutional rights are being violated if you impose this mandate. I have the right to choose what type of vehicle I drive. I am on a fixed income and would not be able to afford an electric vehicle. The electric grid cannot handle this. The cost to replace the batteries is astronomical. If the batteries affect AM radio signals what will this do to the occupants health? Why should we be beholden to China for the batteries for these vehicles? Where are we going to dispose of the old batteries? I am opposed to this mandate. Uh
