Comments on 2022-R-A-0011: Low Emission Vehicle Program

Name: Vincent Brady

Phone: 13022293930

Email Address: VBrady9981@aol.com

Organization: Delaware residents with common sense.

Comments:

EVs' have batteries for energy storage. EVs' do not produce energy themselves, therefore the energy is produced by power plants elsewhere, and the emissions generated are just transferred to the producing power plant. There is no actual reduction in emissions. It does seriously reduce the range and independence of citizens traveling while increasing taxpayer costs to construct new power plants to meet the new need.
