Comments:

I don't support the California mandate law of EVs in the state of Delaware. We are not California with bad pollution problems. The average person can't afford the cost of these EVs or seniors. I will vote out any representative who supports this law. There are better ways to cut emissions. I will never own one, and you are invading my 2nd amendment rights trying to tell me what type of vehicle I have to buy. 70% of people in Delaware say know to this law.
