Comments:

I do not agree with this entire electric vehicle program mandate. I think we are unprepared for this to go into affect. I do not agree with it also because me and my family could not afford one of these vehicles nor could I afford my electric bill increasing due to having to charge this vehicle. Also my insurance will be raised if I were to have to purchase one of these vehicles which would also be a financial burden to me and my family. I completely disagree with this mandate and I think our state needs to reevaluate things like this mandate there are a lot of things that our state and people are not ready for.
