Please add our names to the ever-growing list of those Opposed to DNREC's proposed EV sales mandate. You have heard all the reasons, but are you listening? NO! Consumers should maintain their free will to purchase the type of vehicle they choose . . . NOT be forced to purchase one that is cost-prohibitive and undesirable for Many. We agree with a comment made recently: "there should be no reason to bribe or mandate their purchase; the free market will take care of that if EV's are so good."
