Comments on 2022-R-A-0011: Low Emission Vehicle Program

Name: Phil Taylor

Phone: 302 245 4543

Email Address: taylorhouse87@aol.com

Organization: No

Comments:

I am totally against the proposed Low emission sales bill about to be voted on. It is not well thought out and restricts the movement and activity of all Delaware citizens , especially the elderly, the rural, the farmers, It will cost us a lot of money and restricts our movement. You have not asked us and you are not allowing us to vote on it. You will allow us to comment, and then you will ignore our wishes. I go on trips that are six to eight hundred miles in length and cant wait around public charging stations only to get mugged or stay in a hotel while the vehicle charges. Due to risk of fire, I will not park it in my garage. The materials to make these vehicles are all off- shore. I lost a job of a life time due to foreign competition. The materials are mined by slave and forced labor. We will remember your party at the ballot, even though you are unelected bureaucrats. Do not force something on us we do not want.
