

Subject: ECARS

Date: Friday, May 19, 2023 at 8:53:48 AM Eastern Daylight Time

From: t.bailor@mchsi.com

To: HearingComments, DNREC (MailBox Resources)

This is the most unreasonable item before DENREC. These are a few reasons why:

War against the petroleum industry is unwarranted.

Loss of great paying jobs is a result.

Everything is touched by this industry.

Transportation, manufacturing & employment

The E=cars need petroleum to be made

Life quality (freedoms) losses

Disposal issues of batteries

Average income earners will not afford E=cars especially new drivers

Added costs for charging stations at home.

We are the most conscious nation in the world dealing with emissions. Work with nations to improve their emissions.

Penalizing Americans for world nations not addressing this issue

If legislative demands this ease into this over 50+- years not so dramatic step so quickly, attack the causes not the people compliance. Technology answers the questions of pollution fuels and mandate the correction of how to use pollution generation when used like the catalytic converters.

The forceful mandates is political suicide for anyone supporting forced purchase of ECARS.

IN GOD WE TRUST ! ! ! !
