I do have issue with this proposed law as it is not possible for all Delawareans to have electric charging stations at their houses! That is an outrageous requirement. I agree with the requirement being a hybrid vehicle that would give us time to get to a charging station. Also, we take trips that would outlast the charge of an EV which limits the mileage. This EV proposal is ludicrous and not fair to the citizens of Delaware. Hopefully our representatives in the legislature will not pass this bill !!!!
