Gentlemen,

For the record I want to cast a NO vote on the proposed EV Mandate. I expect to be able to make choices in a free society and not being dictated to by

special interest groups. Let the "people" decide on what vehicle they wish to buy. Have EV's available yes, for those who wish to purchase them, but forcing others to do the same

just isn't what we should be doing in America---freedom of choice is paramount.

Sincerely,

Bernadette Bennett
