Comments:

I do not support the low-emission vehicle program. If the world is not on board DE participation will not make any impact on cleaning the air. Trees are a natural resource for providing and cleaning the air and it seems DE has no issues with cutting them down and calling it progress. I-95 runs through DE, are you going to redirect traffic? Are you going to hinder anyone coming from another state without a low-emission car not to visit DE beaches? Have you addressed the concerns of our farmers downstate? To many questions without any answers, Stop the nonsense!
