Comments:

To whom it may concern. I as a citizen of Delaware do not agree with the low emissions mandate. All this is, is a targeted attack on our American rights to live free and work and have a unregulated life from government entity's and it so tiring to keep haven't some in my back pocket taking my money for some fake liberal agenda. It would be nice to wake up one day and have more money in my pocket so I can live my life to the fullest and not feel like I got to keep working for my crappy government agenda. Just leave the people alone. I work 7 days a week just to have the man kicking while I'm down. Thank you Jason Callahan
