Comments:

Taking away the rights of delaware citizens to have a choice on what they purchase is the very reason this is wrong. Our electrical grid can't handle the the strain now. Democrats have destroyed coal plants to replace it with natural gas. Now they want to ban that. When will this overbearing control stop. Give the people of delaware the right to chose. If i wanted to live by California rules I would move there. Maybe carney should just move there with the rest of the fruits and nuts.
