Comments:

I am asking that DENREC not implement the current EV mandate. The reasons are. 1. We should use the Federal mandate, not the state of CA. This is going to happen and the slower the better to give technology time to catch with the upcoming needs especially the power grid. 2. The cost of the EV are above what most people can afford. 3. The price and quality of the batteries have not had a chance to prove themselves over a long period of time. thank you
