Comments:

I am a senior citizen on a limited budget. I also try to support those in need like veterans, hospice, food bank, homeless, etc. There is no way I can afford an electric vehicle nor can I maintain one at the current costs. There are a lot of the people around me that cannot afford any vehicle, never mind an electric vehicle. There is no way the majority of people in Sussex County can afford these vehicles. They cannot even find housing. Please reconsider your stance on mandating electric vehicles.
