This is crazy! We are not ready for this. I don't know how we are all going to charge the vehicles. Many senior citizens on fixed incomes and renting their homes will have to drive to WaWa in Rehoboth or Dover to charge their vehicles. Infrastructure is not ready!! All new homes should have ev charging capacity which will raise the cost of new homes. Which are priced so high now. It cost just as much if not more to power EVs. Let's be honest!
