Comments:

I OPPOSE the EV Mandate. This unfairly targets low income families and especially seniors. Our power grid will never handle this and we hear nothing on plans to change that fact. What I buy is my choice, never a mandate. DNREC needs to plan for and prove the move to EV works so that we would go EV by choice, not force. Anything of this magnitude should be decided by our legislature and not by one person empowering a government agency. Tying us to California is insulting and dangerous - should never have been done and needs to be canceled.
