I am against the proposed mandate for E. V.

This is nothing more than a TAKE OVER of another of our freedoms.

There is no planning in place to make this work.

It is a bad idea ! SAY NO !

There is no grid, no ability to produce enough electric etc.

" Blackouts outs " will cost lives, money and lack of proper planning etc.

There is no reason to purchase oil from our enemies when we have more than enough to supply us and most of the world.

This is nothing more than a power grab to convert our country to a " CHINA " type control.

NEXT comes control of our money. They decide what we can purchase.

START doing your job and start making GOOD decisions basted on what is good for our country, not good for you.

This is another example of a power grab for some individuals.

ACT LIKE AN AMERICAN and start standing up for AMERICA.

Edward Waysz, Fenwick Island De.
