Comments:

Exactly how do you propose to provide for the all the persons that live in apartment, condominiums, row homes with these electric plug-in recharging docs to be able to "charge" their vehicles. And who is going to foot that bill to install them. Who is going to install all these charging plugs in existing homes with people on fixed or otherwise "can't afford to install these electric plugs"? How about all these parking garages????? These are just the simple questions that are going to cost Delaware (TAX PAYERS-LETS FACE IT-WE ARE THE ONES YOU ARE GOING TO CHARGE TO MAKE THIS HAPPEN) way too much!!! This idea of Electric cars should be a CHOICE not a REGULATION.
