Subject: Comment on your UV proposal

Mr Garvin,

I don't support your proposal (with the support of Gov. Carney) that all the citizens of Delaware will have to buy EV's by a certain date. I think UV's may be good for some people but I just can't understand how or why you are thinking of forcing us all to buy expensive cars in the near future. Some people won't be able to buy them, so what must they do? Whatever happened to the idea that we get to choose how we want to live our lives as best as we can.

So, I don't agree with this plan and will do whatever I can to remove it as a requirement or regulation and keep it from being enacted.

Respectfully,
James Metzger
