Comments:

No EV mandates - we are totally against this - our whole family of 4, grandmom and most rational people I talk to. Any person who sponsors this should be removed from their position. This is insane. There are better ways to save the world, maybe China should do their part!! We are already considering moving out of this state bc of this sort of non-sense and already got our son to move to a better state. We will follow him so we dont have to pay taxes to people who legislate stupid regulations while letting criminals run free. Get your priorities straight!!!
