Organization: No

Comments:

I am against the Governor's plan to mandate electric vehicles in Delaware. I will NEVER drive an electric vehicle, so I believe we should all have choices as to what kind of vehicle we want to purchase and drive. I thought we lived in a country where we were free to choose, and this is one man's way of taking choice away from us. If people want to drive EV's, they should have that option, but no one should be made to do something they don't want to do. That's not freedom!!
