Comments:

I do not agree with a EV mandate. 1, Our grid is unable to handle this at this time. 2. The cost of replacement battery are around \$20,000 to replace with only a 10yea life span. 3. How are the old batteries going to be stored as they are unrecyclable. 4. At this time to go cross country would take longer with a EV car Vs a gas driven car. I can't find answers to these questions. At this time at lease in my income bracket they are unaffordable.
