

**Subject:** Advanced Clean Cars 2 program in Delaware

**Date:** Thursday, May 25, 2023 at 12:09:25 PM Eastern Daylight Time

**From:** Joseph Brown

**To:** HearingComments, DNREC (MailBox Resources)

As the 1st State, we should be leader in forward thinking.

It appears, we're not.

We must support Clean Cars 2, because the climate is changing rapidly.

We don't need even more damaging tornadoes... If we don't jump on the bandwagon and steer away from fossil explosion, we're going to reap what we sew.

I support Clean Cars 2 program in Delaware.

-Joe
