

Subject: No to Electric Vehicle Mandate

To whom it may concern:

As a Delaware resident for 55 years, and a business owner I am opposed to an Electric Vehicle Mandate. I'm not opposed to electric vehicles but as a resident of the State, and citizen of our United States of America I believe this to be directly opposed to our constitution on both state and federal levels. I for one believe it should be my choice to make as to what kind of vehicle I pay for and drive.

Sincerely

Louis J Pisapia
