

**Subject:** Stop the Electrical Insanity

**Date:** Thursday, May 25, 2023 at 10:19:09 AM Eastern Daylight Time

**From:** Michael Coverdale

**To:** HearingComments, DNREC (MailBox Resources), Krall, Kyle (DNREC)

I am not in favor of the unprecedented rush to force regulations upon the citizens of Delaware to move to electrical vehicles. As a lifelong resident of Delaware, I do not favor adopting California's standards and shoving them down our throats. California is the last state that I want to lead the State of Delaware and it's citizens down a path of ridiculous regulations.

People are moving away from California and seeking states with better leadership. **Right now I feel that our leadership has become a Dictatorship!!!!** Our leaders are not listening to their constituents. Something as important as this movement should be put to the voters of the State of Delaware on the next electoral ballot. Let us decide. Not the jackasses running our government who feel they are God's Gift to the World of Knowledge and Wisdom!!!!

During hearings you hear people that are in favor of electric vehicles that appear to be reading from well organized prepared statements. In the newspaper accounts you always see comments from Climate Control zealots and members of the Sierra Club. The politicians of New Castle County, which are practically all Democrats, are right in line with the Governor and following his marching orders. Move to Kent and Sussex County and the Democrats are still following the marching orders of the Governor but the story changes with the Republicans and the bulk of the everyday citizens. I dare say that probably the bulk of the everyday citizens in New Castle County also do not favor the shift to electric vehicles. Does anyone listen to the wishes of the voters and everyday citizens? No!!!

**Is this a dictatorial move? Absolutely!!!** I never voted for it nor did I ever have a chance to vote against it!!! Oh sure, I voted for someone to represent me in the State House of Representatives and the State Senate but I don't recall them ever voting for this either!!! Not only that, but the sheer fact that the state's government is under Democratic control by career politicians, that have deep ties to President Biden doesn't give us chance of defeating this!!!

**This whole process is absolutely disgusting!!!**
