Organization: No

Comments:

We are seniors who drive a 10 year old car that has been properly maintained all these years! We have NO need of another car. We cannot afford one! nor do we think we should be "ordered" / mandated to purchase an electric vehicle! Their cost is prohibitive and there is not enough data/knowledge - if electric vehicles will ever "save" the environment! Where will all the bad batteries be tossed? ...- in the ocean? How much will it cost the taxpayers -bover time - to pay for all the charging stations and implementation of newer updates? Just recently, We have seen many tow trucks on Route 1 and even in our neighborhood transporting an electric car that has obviously stopped running! Please do NOT mandate EVs here in Sussex County DE! Thank you!
