Comments:

I wanted to express my opposition to mandating EV vehicles in the State of Delaware based on California guidelines by 2035. The electric grid is not capable currently or in the near future of satisfying the electricity that would be required for a mandate of these vehicles. Mandates are unconstitutional as we found out with COVID vaccines. It will be unconstitutional with mandating EV vehicles to be purchased. Again I want to express my opposition to this mandate. Thank you, Tom Hes
