Subject: comments on DNREC UNCONSTITUTIONAL EV MANDATE

Am TOTALLY against the illegal and Unconstitutional regulation and efforts by DNE+REC to outlaw gasoline and diesel fueled vehicles. It is an abuse of legislative power which DNREC in this instance DOES NOT HAVE THE AUTHORITY TO DO.

PLEASE show me where the Delaware Legislature has passed a law mandaitng and requiring these actions> A passed legislative action that the Governor has signed!

To say that Delaware shall follow the California actions is an abuse and over broad expansion of power that the people of Delaware have NOT given the Governor or the Legislature for these specific action,

ALSO DNREC is in violation of the Supreme Court case of West Virginia v EPA decided in 2022 in which the EPA was stopped from exceeding its legislative authority.

SAME thing here

In addition, this regulation is an unlawful and illegal taking, as forbidden by the US Constitutions (HMM does DNREC even know what that document is!)

PLUS this regulation is NOT law, and illegal takes away the livelihood of car dealers, car owners, gas and fuel station owners etc.Push this thru and be prepared for multi lawsuits in state and Federal court by the poeple of Delaware.
