Comments:

I understand that today, May 26, 2023 is the last day to make a comment about the mandate for electric vehicles in Delaware. I will not comply because I cannot afford an electric car, cannot afford a replacement battery, do not feel that the US has the materials to make enough EV for our people without involving China and other countries, and I will not be told that I have to do this. Hopefully, we as US citizens will be able to buy gas powered vehicles and be able to make our own choices. Thanks for your attention to this matter.
