Organization: No

Comments:

I am against the EV mandate! 1. It infringes on our freedom to choose. 2. It will mostly adversely affect the working poor who will not be able to afford a new EV . 3. It will eventually lead to banning all gasoline and diesel powered vehicles. 4. I feel that pressing for more hybrid vehicles is a better choice because it would greatly decrease use of fossil fuels and still allow freedom of choice. 5. The power grid will be severely taxed to a point where other essential power needs are affected such as heating homes.
