Comments:

I currently have a hybrid car. Even that is extremely expensive. I don't believe that denrec should have the authority to make these types of decisions. I do believe that we need to move in this direction but let's use wisdom And think this out. It's going to be a hard transition no matter when we do it. But Sussex County is a low income poor county. This is is irresponsible. We're not California. We should take our time. I wonder if there are federal dollars attached to making this happen.?
